Restoring Creation Loan

The Restoring Creation Loan is available to qualifying congregations engaged in projects that purposefully render our churches more energy efficient. With discounted interest rates and flexibility in loan terms, congregations will be encouraged to renovate their buildings using energy efficient products.

Qualifying Projects

- Solar panel installations
- High efficiency HVAC systems
- Energy efficient lighting systems
- Insulation
- Roofing Systems
- and many more...

Advantages of the Restoring Creation Loan

- Endowment Funds and Investor funds can be used to fund Restoring Creation Loans to a maximum of \$600,000
- Interest Rate is set at 1% below the current interest rate of corresponding fund source with no floor rate policy.
- Lower equity requirements of 10%.
- Flexibility of loan terms that consider the length of return on investment.
- Restoring Creation Loans may be a portion of a larger loan.
